

## Noren Products Inc Announces Release of UL/cUL Listed Product Line

MENLO PARK, California, July 8 – Noren Products Inc. today announced the availability of its UL/cUL Listed **Compact Cabinet Coolers** for use on UL 508A enclosures. Recognizing that maintaining the UL Listed status of its OEM panel builder customer base is critical to their success, the company will offer its air-to-air and air-to-water heat exchangers with the UL/cUL Listing as an option.

### About Noren Products Inc.

Founded in 1968, Noren brings 40 years of proven expertise to the prevention of costly damage due to overheating in all types of electrical, electronic, drive and device control panels. By adding UL/cUL Listed versions as an option, the company further extends its family of cooling solutions.
