

AcoustiLock Offers Superior Noise Reduction and Heat Removal for the Computer Equipment in Your Studio, Home or Office

NOT JUST A BOX WITH FOAM!

For 4 years Noren Products Inc. has been producing noise reduction and heat removal cabinets for professional Audio/Video Studios, Home Studios, Entertainment Centers, IT/Server Rooms and Offices.

A separate equipment room is no longer necessary. Our cabinets allow you to work in the same room as your noisy equipment, reducing the noise level while removing the equipment's waste heat.

Offering cabinets for single towers up to 24u of rack mountable space, you can choose the cabinet that fits your equipment and your needs. And now with FREE SHIPPING (curb to curb), your noise solution is even more affordable than before.

Available in two standard finishes, BLACK and MAPLE, these units can be accessorized with optional temperature meters, internal lighting, locking doors and slide-out racks and drawers. AcoustiLocks are truly space savers and allow you to

“HEAR YOURSELF THINK DIFFERENT”
